Dear Sirs,

A patron of our ^{like} Library would information on an old abandoned mine in Beaverhead County, it is in the Mountains around Jackson, and is south of the Ajax mine, if you know where that is. Also it is near a lake called Cowbone Lake. Do you have any information that we could pass along to him, as to the history and kind of mine this is? Or can you tell where to get it, the name of a book or publication that would contain it?

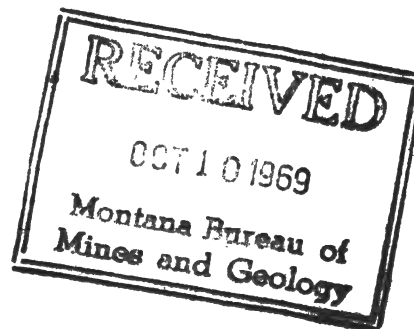

We will appreciate any help you can give us.

Sincerely,

Mrs. George VanDelinder

Librarian

Belgrade Public Library
