All general county statistics were obtained from the Montana Department of Commerce website (<http://ceic.commerce.state.mt.us>)

Mining Districts

Rocky Mountain*

(*) Indicates names used to refer to unorganized or unofficial mining districts or areas. If no information was available in the Bureau's files at this writing, a note to that effect was inserted under the "History and General Information" section in the body of the text under the individual mining districts.

(+) Names shown in parenthesis are alternative names for the mining districts.

Disclaimer: The information included in this report is a compilation of historical information maintained in Montana Bureau of Mines and Geology (MBMG) files, except when references are made to work performed or conducted by MBMG personnel. No guarantee is made, either expressed or implied, as to the accuracy of this historical information. The purpose of this report is strictly to serve as a compilation of historical information. Portions of this information are undoubtedly accurate; in other cases, the information may be obviously flawed. Some areas will have detailed discussions; in other areas the information coverage might be scant due to how and when the information was gathered or collected. When available, additional references for areas, or topics of discussion covered are listed at the end of each county to assist the reader.
